

Collections

DESCRIPTION

This section will guide you to:

- Create a Java project in your IDE
- Write a program in Java to create collections

```
package collection;
import java.util.*;

public class collectionProgram
{
    public static void main(String[] args)
    {
        // TODO Auto-generated method stub
        System.out.println("ArrayList");
        ArrayList<Integer> num = new ArrayList<Integer>();
        num.add(1);
        num.add(12);
        num.add(30);
        System.out.println(num);
        System.out.println("LinkedList");
        LinkedList<String> fruits = new LinkedList<String>();
        fruits.add("Mango");
        fruits.add("Banana");
        fruits.add("Grapes");
        System.out.println(fruits);
    }
}
```

OUTPUT

```
ArrayList
[1, 12, 30]
LinkedList
[Mango, Banana, Grapes]
```
