Arrays

DESCRIPTION

This section will guide you to:

- Create a Java project in your IDE
- Write a Java program to create arrays

```java
package arrays;

public class ArrayImplement
{

    public static void main(String[] args)
    {
        // TODO Auto-generated method stub

        int a[] = new int[5];
        int n = 5;
        for(int i = 0; i <= n; i++)
        {
            System.out.println("Elements in Array Are : "+ i);
        }

    }

}
```

OUTPUT

```
Elements in Array Are : 0
Elements in Array Are : 1
Elements in Array Are : 2
Elements in Array Are : 3
Elements in Array Are : 4
Elements in Array Are : 5
```
